

# SHELTR the TURTLE™

In light of recent and historical tragic events involving violence in schools, it has been found that many school children show signs of apprehension in returning to their school even though a violent attack may have been committed at another school. Partnering with Norhurst Tactical and the SHELTR<sup>SM</sup> (School Hazard Emergency Lethal Threat Response) Program, ENSSA-INSCITE™ has developed SHELTR the Turtle. This plush Turtle has been designed to assist children in coping with these violent events. SHELTR the Turtle provides the child with a reminder that there are people working to keep them safe.

ENSSA™ (Educators National School Safety Administration) was created as a central repository and communication portal to educate schools and learning centers in “Best Practice” security protocols and solutions. This robust site provides educators, faculty, staff and their school safety partners with quality information, resources, consultation, and training. ENSSA™ also connects schools and learning centers to share effective ideas and strategies which are paramount in the prevention of school crime and violence. Our National Mission Statement of “Safe Schools in America” echo’s the total United States Academic Mission.

ENSSA-INSCITE™ (International Safe Child Initiative) is the 501( c ) ( 3 ) charitable division of ENSSA. The mission of ENSSA-INSCITE™ is to use best practice school safety protocols to ensure the safety of children in the United States and across the world. With the ever increasing threats to schools, ENSSA-INSCITE™ strives to keep children safe while maintaining a fun and engaging learning environment. 100% of all money donated to ENSSA-INSCITE™ is used to provide school safety training, protective products and training materials to schools across America.

ENSSA-INSCITE™ is committed to the physical safety and mental well-being of our nation’s children. SHELTR the Turtle™ is a loveable plush toy, yet physically and mentally tough enough to help children feel at ease when dealing with the aftermath of a traumatic situation. SHELTR the Turtle™ will help the healing process by reminding children that others are working daily to protect them from harm. For more information or to make a SHELTR the Turtle™ donation, please visit [ENSSA.org](http://ENSSA.org).
