

# The PAK-Jacket™ System

The PAK Jacket™ (Protect A Kid Jacket) System is designed for individual mobile protection. Manufactured to NIJ-III A ballistic standards, the PAK Jacket™ System provides protection from .22, .38, .44, and 9mm ballistic rounds. In addition, the jackets are fire retardant, cut resistant, razor/slash resistant, bite resistant, and shrapnel resistant. As part of a total system, each PAK Jacket™ includes Kevlar gloves, shatter resistant goggles, a vacuum sealed first aid kit, and a high decibel whistle. The PAK Jacket™ System is a versatile option for protection from a variety of emergency or threat situations.

**SPECIFICATIONS**—The PAK-Jacket has been designed to protect the body, genitals, arms, neck, and head from a variety of injuries that may be caused during a natural disaster, emergency or threat situation. The outer shell of the PAK-Jacket is made of a proprietary Kevlar weave and includes ballistic plates covering the torso area of the jacket manufactured to NIJ-III A standards. Even with the amount of protection offered, the PAK Jacket remains light enough so an adult or child can move freely to a safe area. The interior lining is also fire resistant and static resistant.

## FEATURES

**First Aid Kit**—A vacuum sealed first aid kit is attached to the interior of each jacket and allows first responders to administer immediate first aid when required. Each kit comes with pressure bandages, tourniquet, and a waterproof first aid directional card.

**Gloves**—A pair of special Kevlar weaver gloves are stored in the hood of each jacket. These gloves offer cut proof protection when used to move sharp or jagged debris. Kevlar weave mittens will be stored in the hood of children's jackets.

**Goggles**—Goggles are stored in the hood of each jacket. The goggles are specially designed to provide protection in extreme temperatures and seals to almost any face shape. They meet ANSI Z87.1-2003 (High Impact) Standards and are certified to the requirements of CSA Z94.3.

**Whistle**—A high decibel safety whistle comes with each PAK-Jacket and is stored in the jacket sleeve pocket. The whistle can be utilized to assist rescue workers locate a person who may be trapped under debris or in a smoke filled building.

**Fire Escape Respirator (Optional)**—An ASE 30 Fire Escape Respirator and Smoke Hood can be added to each PAK-Jacket.

## Tactical

### 'SHELTR'<sup>SM</sup>

### Training Program

Unfortunately schools and other public venues around the world are becoming a target to foreign and domestic terrorism. There are not enough law enforcement officers available to secure every location where a terrorist or terrorist organization may attack. The 'SHELTR' Training courses and Tactical Protective Gear gives the school, university, or workplace a chance to defend from an Active Threat. Safety Hazard-Emergency-Lethal Threat Response<sup>SM</sup> (SHELTR) Training provides Teachers, employees, maintenance staff and grounds keepers with training tools and techniques in which to keep their school or workplace safe. These tools and techniques teach how to "LOOK" for things that are out of the norm, "REPORT" incidents in a timely and accurate manner, and "RESPOND" if your campus or workplace becomes engaged by a crisis or threat.

### 'SHELTR VISION'<sup>TM</sup> Mobile Application

Developed for iPhone and Android operating systems, the SHELTR VISION<sup>TM</sup> mobile application allows direct communication with authorities while in a crisis situation. Utilizing video, sound, GPS, and an emergency location beacon, authorities monitor

### Ballistic Desks ([www.ballisticdesk.com](http://www.ballisticdesk.com))

The Ballistic Desk armored 'Desk Top' panels can be fastened to either an existing desk or can be newly manufactured as the top of a traditional desk. Each panel has a smooth surface to support normal student curricular activities. The desks can be placed strategically around the classroom. They are designed to be lightweight for ease of movement while providing optimal NIJ Level II ballistic protection.

### Blast Boards ([www.blastboards.com](http://www.blastboards.com))

The Blast Board is a ballistic white board that provides NIJ IIA Ballistic Protection. The boards can be fastened in place of an existing whiteboard/chalkboard or be purchased as a stand alone product. "Wall Mounted" Blast Boards are mounted with a single point quick release system that lowers the board to the ground in less than 3 seconds. The back of each board is equipped with multiple non-slip handles to provide users with protection while moving to a safe location. The blast board also provides superior protection when used as a shield in the classroom safe area.
