## Tactical

Norhurst is a service-disabled veteran-owned company that exemplifies the highest standards of military training and support. Our training techniques have been honed over years of service to our country as Special Forces soldiers and we have adapted these proven training tactics, techniques, and procedures (TTP's) to provide the very best training to our customers regardless of the individual or collective requirements. Our team of subject matter experts, instructors, and instructional designers can modify any of our courses to meet specific customer requirements. We can also create custom training to meet any operational or academic need.

Our training development and delivery uses a blended learning approach, including a mix of conventional brick and mortar classroom training, hands-on training, and practical exercises that can incorporate various distance learning methodologies to reduce costs and enhance the learning experience.

We have trained thousands of military and government personnel in proven tactics, techniques, and procedures from basic marksmanship to enhanced computer forensics and sensitive site exploitation. Our extremely experienced cadre of instructors is composed of Special Operations Forces (SOF) Operators with tactical deployments in combat theaters of operation, as well as military intelligence and law enforcement experts who are leaders in their area of expertise.

# BASIC LIFE SUPPORT

Based curriculum of the American Heart Association (AHA), the Basic Life Support course focuses on the level of medical care which is used for victims of life-threatening illnesses or injuries until they can be given full medical care. The course will consist of both didactic training as well as hands on training covering the conditions of cardiac arrest, choking, and drowning. Individuals will learn basic first-aid and how to respond to each of the given scenarios to help treat the wounded.

Duration: 12 Hours

Website: [www.norhursttactical.com](http://www.norhursttactical.com)  
Email: [training@norhursttactical.com](mailto:training@norhursttactical.com)  
Phone: 434 792 8116

# FIRST AID/CPR & BLOOD BORNE PATHOGENS

This advanced first-aid course provides the individual with instruction utilizing the National Safety Council lesson plans and material. This period of instruction is a comprehensive course covering all emergency and other first aid situations that may be encountered. The primary themes of the course are injury and illness prevention, current statistics, the key principles of first aid and variations on key principles. This course is taught through lecture, demonstration, practical exercises and written examinations. Upon successful completion of this course, the individual can receive certification from the National Safety Council for First Aid, CPR and Blood Borne Pathogens.

Duration: 12 hours

Website: [www.norhursttactical.com](http://www.norhursttactical.com)  
Email: [training@norhursttactical.com](mailto:training@norhursttactical.com)  
Phone: 434 792 8116

Proud Sponsor of:

# COMBAT LIFESAVER

In addition to basic CPR, it is vital to understand combat lifesaving techniques and procedures. This course focuses on situations where an individual might be the sole medical provider for an extended period of time after an injury occurs. Topics include checking for breathing, bleeding, shock, fractures and other injuries, as well as performing first aid for different wounds around the body.

Individuals will also learn different techniques when carrying wounded individuals to safety.

Duration: 16 Hours

Website: [www.norhursttactical.com](http://www.norhursttactical.com)  
Email: [training@norhursttactical.com](mailto:training@norhursttactical.com)  
Phone: 434 792 8116

Proud Sponsor of:

# SPECIAL OPERATION FORCES (SOF) MEDIC

This combat medical course is a paramedic refresher as well as the specific skills of being a special operation forces medic. This course covers a hands-on approach of advanced tactical and medical skills and enhances team building and inter-service operability of SOF medic assets. This course will strengthen and improve the individual's firearm skills and ground tactics.

Duration: 72 Hours

Website: [www.norhursttactical.com](http://www.norhursttactical.com)  
Email: [training@norhursttactical.com](mailto:training@norhursttactical.com)  
Phone: 434 792 8116

Proud Sponsor of:

# TACTICAL MEDIC

This combat medical course is a paramedic refresher as well as the specific skills of being a tactical medic. This high-level course provides instruction of advanced tactical and medical knowledge, skills and abilities. This course will also promote team building, and inter-agency problem solving in tactical medicine. The individual will learn to improve firearm skills and integrate them into tactical medicine.

Duration: 72 Hours

Website: [www.norhursttactical.com](http://www.norhursttactical.com)

# CBRNE/HAZ-MAT RESPONSE

The CBRNE/Haz-Mat Response course gives the individual the basic skills to identify the harmful effects of hazardous materials and Chemical, Biological, Radiological, Nuclear high yield Explosive (CBRNE). Individuals will learn how to recognize potential HazMat and CBRNE events, the responsibilities of first responders, and individual protective and safety measures.

Duration: 12 hours

Website: [www.norhursttactical.com](http://www.norhursttactical.com)  
Email: [training@norhursttactical.com](mailto:training@norhursttactical.com)  
Phone: 434 792 8116

Proud Sponsor of:

# SELF-DEFENSE/ DEFENSIVE TACTICS

Basic Self-Defense Training teaches defensive tactics and modern techniques for hands-on battles with suspects. These techniques are designed to protect individuals during hand-to-hand confrontations. The combination of Krav Maga, Kickboxing, and Jiu Jitsu will teach the individual how to subdue suspects in close quarter battles as well as maneuvers to employ against assailants in different, specific situations.

Duration: 12 Hours

Website: [www.norhursttactical.com](http://www.norhursttactical.com)  
Email: [training@norhursttactical.com](mailto:training@norhursttactical.com)  
Phone: 434 792 8116

Proud Sponsor of:

# MECHANICAL ADVANTAGE CONTROL HOLDS (MACH)

This technique is established as a national standard of subject control and defensive tactics that has been adopted into training curriculum and use of force policy at all levels of the military. MACH holds are a series of five techniques that is designed to work using positioning, joint manipulation, leverage and the subject's momentum against them; this allows for the relative differences in an individual's size and strength versus a subject's size and strength. The course begins with ensuring proper safety procedures are in place, and focus on Close Range Subject Control (CRSC) techniques as subject control and personal safety, and NOT specific hand or body placement. This class is an excellent foundation for less than lethal methods of control. MACH includes same techniques with baton.

Duration: 12 Hours

Website: [www.norhursttactical.com](http://www.norhursttactical.com)  
Email: [training@norhursttactical.com](mailto:training@norhursttactical.com)  
Phone: 434 792 8116

Proud Sponsor of:

# OLEORESIN CAPSICUM

The Oleoresin Capsicum (OC) class is designed to train the individual in the use of OC. The class teaches the history of OC, a use of force review, and what OC is derived from. The individual will learn the physiological and psychological effects of OC, the proper procedures for deploying OC and the different types of OC delivery systems. This class also teaches general decontamination and recovery from OC and terms associated with OC. This class is taught through lecture, demonstration and a practical exercise where students will be exposed to OC and conduct fight-through drills.

Duration: 8 hours

Website: [www.norhursttactical.com](http://www.norhursttactical.com)  
Email: [training@norhursttactical.com](mailto:training@norhursttactical.com)  
Phone: 434 792 8116

Proud Sponsor of:

# MENTAL CONDITIONING AND SURVIVAL

This course provides the individual with the basics for developing a winning attitude. There is a discussion of how we perceive and react to danger. It addresses historically how, when, and where persons have been assaulted/killed on duty. It gives an introduction to tactics proven to give military personnel advantages in dangerous situations, and provides an introduction to the concept of Contact-and-Cover.

Duration: 8 hours

Website: [www.norhursttactical.com](http://www.norhursttactical.com)  
Email: [training@norhursttactical.com](mailto:training@norhursttactical.com)  
Phone: 434 792 8116

Proud Sponsor of:

# STRESS AND STRESS MANAGEMENT

The Stress and Stress management course prepares the individual to identify the types, causes & symptoms of stress along with techniques to reduce or manage stress. This class discusses the emotional impact of military duty and the frequent exposure to emergency events that can cause severe psychological, physical and occupational difficulties. The individual is taught corrective action to reduce stress in everyday life, both at the individual and unit level and addresses awareness of the common indicators of and reactions to stress.

Duration: 8 hours

Website: [www.norhursttactical.com](http://www.norhursttactical.com)  
Email: [training@norhursttactical.com](mailto:training@norhursttactical.com)  
Phone: 434 792 8116

Proud Sponsor of:

# TACTICAL COMMUNICATION

The Interpersonal Communication Skills class teaches the individual to learn the importance of personal communication skills, particularly as it pertains to conflict resolution and avoidance. This class teaches the basic guidelines of interpersonal communications and introduces the skill of observing body language, behaviors and good listening practices. This class includes identifying methods for effective listening, barriers to communication and methods to improve communication with persons from varying backgrounds.

Duration: 8 hours

Website: [www.norhursttactical.com](http://www.norhursttactical.com)  
Email: [training@norhursttactical.com](mailto:training@norhursttactical.com)  
Phone: 434 792 8116

Proud Sponsor of:

# WEAPONS RETENTION

Weapons Retention Training covers how the individual can maintain constant situational awareness and control of their weapons. This course teaches state-of-the-art techniques to use to prevent a subject from gaining control of an individual's weapon, protecting yourself and weapons from an aggressor, maintaining your orientation, initiating control of the situation, assessing a threat, and neutralizing a situation.

Duration: 4 hours

Website: [www.norhursttactical.com](http://www.norhursttactical.com)  
Email: [training@norhursttactical.com](mailto:training@norhursttactical.com)  
Phone: 434 792 8116

Proud Sponsor of:

# SITUATIONAL AWARENESS

Situational awareness is defined as knowledge and understanding of the current situation which promotes timely, relevant and accurate assessment of friendly, competitive and other operations within the battle space in order to facilitate decision making. This course helps develop an understanding of the applicable safety precautions while performing military duties. Individuals will learn the correct procedures to respond to the different situations they will encounter on-duty.

Duration: 20 hours

Website: [www.norhursttactical.com](http://www.norhursttactical.com)  
Email: [training@norhursttactical.com](mailto:training@norhursttactical.com)  
Phone: 434 792 8116

Proud Sponsor of:

# ACTIVE THREAT RESPONSE

Dealing with an active threat scenario is a highly volatile situation. This course prepares the individual to manage the incident response to an active threat. Included in the course are the pre-incident planning, incident response, and post-incident actions. Included in this course is how to work with different agencies and jurisdictions. This course is taught through lecture, discussion, table-top exercises and small group work.

Duration: 30 hours

Website: [www.norhursttactical.com](http://www.norhursttactical.com)  
Email: [training@norhursttactical.com](mailto:training@norhursttactical.com)  
Phone: 434 792 8116

Proud Sponsor of:

# EXPLOSIVE THREATS

This course teaches the basic skills necessary to properly and safely respond to explosive threats. This course includes: identifying bomb classifications, recognizing types of IEDs, bomb threat and evacuation procedures, proper procedures for responding to a bomb threat, and proper procedures for conducting a search for a possible explosive. This course includes a four-hour practical lab in which students apply skills learned in class.

Duration: 12 hours

Website: [www.norhursttactical.com](http://www.norhursttactical.com)  
Email: [training@norhursttactical.com](mailto:training@norhursttactical.com)  
Phone: 434 792 8116

Proud Sponsor of:

# TERRORISM AWARENESS

The Terrorism Awareness class provides an overview of terrorism and terrorist activities in the past, present and future. The class discusses the history of terrorism, varying ideologies, the terrorist planning cycle as well as international and domestic terrorism and its impact on the United States. Topics also covered are the different support mechanisms of a terrorist group, long range goals and common characteristics of a terrorist group.

Duration: 12 hours

Website: [www.norhursttactical.com](http://www.norhursttactical.com)  
Email: [training@norhursttactical.com](mailto:training@norhursttactical.com)  
Phone: 434 792 8116

Proud Sponsor of:

# RANDOM ANTI-TERRORISM MEASURES

Random Anti-Terrorism Measures Training is designed to help individuals fully understand why Random Anti-Terrorism Measures (RAM) are put into place and how they operate. This training covers the purpose of RAM, the concept of their operation, and the chain of command involved in a successful RAM operation. Topics also include the erection of barriers and obstacles to control traffic flow, vehicle, cargo, and personnel searches, and variations in security routines.

Duration: 24 hours

Website: [www.norhursttactical.com](http://www.norhursttactical.com)  
Email: [training@norhursttactical.com](mailto:training@norhursttactical.com)  
Phone: 434 792 8116

Proud Sponsor of:

# CROWD BEHAVIOR & DYNAMICS

When a large amount of people gather, especially in protest, there is a tendency for that crowd to become unruly and the situation could escalate quickly. Military personnel must understand the threat before mass chaos ensues and the safety of the public is in danger. This course gives individuals the basic skills to identify crowd behavior and their tendencies. Individuals will review the characteristics of crowds, resistors, and different types of mob tactics.

Duration: 24 hours

Website: [www.norhursttactical.com](http://www.norhursttactical.com)  
Email: [training@norhursttactical.com](mailto:training@norhursttactical.com)  
Phone: 434 792 8116

Proud Sponsor of:

# RIOT CONTROL

When a crowd does get out of control, responders must react quickly and effectively to ensure the safety of all involved. Riot Training covers how to control large groups of people with a limited number of personnel and resources. This course will teach strategies that can help quell a crowd, procedures to deal with large crowds, when riot gear is needed, and how to use the gear effectively to keep both the public and the responders safe. You will learn techniques of when and how to employ forceful, non-lethal tactics when needed to gain control of a crowd.

Duration: 40 hours

Website: [www.norhursttactical.com](http://www.norhursttactical.com)  
Email: [training@norhursttactical.com](mailto:training@norhursttactical.com)  
Phone: 434 792 8116

Proud Sponsor of:

# ESTABLISH ENTRY CONTROL POINTS

Establishing Entry Control Points Training covers the 11 Performance Measures focusing on how to properly set up and direct a Control Access Point. This training includes how to perform visual checks of vehicles, identifying those individuals who are not granted access, what materials are needed for a proper Control Access Point, and what to do when you come in contact with an unauthorized person or vehicle.

Duration: 12 Hours

Website: [www.norhursttactical.com](http://www.norhursttactical.com)  
Email: [training@norhursttactical.com](mailto:training@norhursttactical.com)  
Phone: 434 792 8116

Proud Sponsor of:

# PREPLANNED RESPONSE PROCEDURES

Preplanned Response Procedures are put in place so individuals know exactly how to react to whatever situation arises. This course identifies responsibilities and guidelines related to immediate actions, general watch types for immediate actions and shooting decision variables. In addition, it differentiates between the types of waterside threats and duties related to immediate actions for water threats, distinguishes the different categories of land threats, the immediate actions for land threats, and procedures for immediate actions for air threats.

Duration: 12 hours

Website: [www.norhursttactical.com](http://www.norhursttactical.com)  
Email: [training@norhursttactical.com](mailto:training@norhursttactical.com)  
Phone: 434 792 8116

Proud Sponsor of:

# ESCORT PROCEDURES

Military escorts are needed from time to time. This course provides individuals with an understanding of the various escort operations they may be tasked with. They are instructed on their roles and responsibilities in a number of general escort scenarios. Individuals will also learn actions to be taken in case of emergencies. Topics such as coordination with other units or agencies and various escort methods will be discussed.

Duration: 4 hours

Website: [www.norhursttactical.com](http://www.norhursttactical.com)  
Email: [training@norhursttactical.com](mailto:training@norhursttactical.com)

# DNA COLLECTION

Deoxyribonucleic Acid (DNA) collection is vital to any criminal investigation. This advanced course will cover DNA evidence identification, collection, packaging, storing, handling, and transportation. Topics include intro to biological evidence, safety procedures, evidence identification, collection techniques, crime scene documentation, and best practices and procedures when packaging, storing, handling, and transporting DNA evidence.

Duration: 8 Hours

Website: [www.norhursttactical.com](http://www.norhursttactical.com)  
Email: [training@norhursttactical.com](mailto:training@norhursttactical.com)  
Phone: 434 792 8116

Proud Sponsor of:

# GUNSHOT RESIDUE ANALYSIS

This course covers the investigation of forensic gunshot residue (GSR) by means of Scanning Electron Microscopy / Energy Dispersive Spectroscopy (SEM / EDS). Individuals will learn the fundamentals of SEM/EDS, residue detection, formation, sampling, and analysis as well as quality assurance and potential risks of misinterpretation. Individuals will also use practical training exercises using the latest SEM/EDS hardware to detect GSR.

Duration: 8 Hours

Website: [www.norhursttactical.com](http://www.norhursttactical.com)  
Email: [training@norhursttactical.com](mailto:training@norhursttactical.com)  
Phone: 434 792 8116

Proud Sponsor of:

# EXPLOSIVE RESIDUE ANALYSIS

The purpose of this course is to familiarize the individual with conducting on-the-spot explosive residue or product detection utilizing the latest hardware technology. Individuals will learn procedures and techniques to accurately identify trace explosive residue and visible powders or liquids. Individuals will also learn how to properly utilize and maintain explosive detection field kits.

Duration: 8 Hours

Website: [www.norhursttactical.com](http://www.norhursttactical.com)  
Email: [training@norhursttactical.com](mailto:training@norhursttactical.com)  
Phone: 434 792 8116

Proud Sponsor of:

# HOME MADE EXPLOSIVES

Homemade Explosives (HME) have become a severe threat to both the military and the public. Being able to identify these threats is vital to an individual's safety. This course will cover the HME threat in-depth including safety, explosive theory, improvised detonators, basic chemistry and identification. Topics will include different types of chemical based explosives including peroxide, fertilizer, nitrate, and chlorate .

Duration: 24 Hours

Website: [www.norhursttactical.com](http://www.norhursttactical.com)  
Email: [training@norhursttactical.com](mailto:training@norhursttactical.com)  
Phone: 434 792 8116

Proud Sponsor of:

# TACTICAL EVASIVE DRIVING

Individuals must be able to gain the upper hand when engaged in a high speed pursuit. This course covers principles and dynamics of high speed driving, evasive maneuvers, pit and pinning maneuvers, rally driving techniques, terrain association, loose surface driving, among others. Individuals will also learn how to react to different situations such as blockades, entrapment, low visibility, moving ambushes, pursuing vehicles, and other high-risk scenarios individuals might encounter.

Duration: 40 Hours

Website: [www.norhursttactical.com](http://www.norhursttactical.com)  
Email: [training@norhursttactical.com](mailto:training@norhursttactical.com)  
Phone: 434 792 8116

Proud Sponsor of:

# CLOSE QUARTER BATTLE (CQB)-URBAN

When individuals are encountered with a dangerous situation inside a building, proper procedures and tactics must be followed when clearing a room to ensure the safety of all involved. This training covers the fundamentals of room clearing including point of entry, movement, gaining control of the room and eliminating the enemy. Topics include working in 2 and 4 man teams, clearing single and multiple rooms and floors as well as stairwells and hallways. Individuals will also learn breaching techniques, multiple building clearing, and firing positions.

Duration: 40 Hours

Website: [www.norhursttactical.com](http://www.norhursttactical.com)  
Email: [training@norhursttactical.com](mailto:training@norhursttactical.com)  
Phone: 434 792 8116

Proud Sponsor of:

# DEVELOPING TACTICAL DEFENSIVE POSITIONS-URBAN

When battles occur inside buildings or other close quarters combat (CQC) situations, individuals must know tactics to survive and escape a hostile environment. This course teaches individuals how to work as an individual or a team tactics such as positioning, firing angles, and using your surrounding environment to your advantage. Topics include setting up barricades, utilizing exterior and interior surroundings, and setting up primary, secondary, fallback positions, escape routes, and how to employ tactics during a rescue mission.

Duration: 40 Hours

Website: [www.norhursttactical.com](http://www.norhursttactical.com)  
Email: [training@norhursttactical.com](mailto:training@norhursttactical.com)  
Phone: 434 792 8116

Proud Sponsor of:

# COMBAT TACTICS

Infantry and other front line personnel must be ready for real combat before they are deployed. This realistic combat course will prepare individuals for combat situations through role-playing exercise training. Individuals will learn and conduct raids, rescue injured personnel, and communicate with different ethnic groups that will be encountered during deployment. This course will help individuals make split-second decisions when faced with difficult situations when in the field.

Duration: 60 Hours

Website: [www.norhursttactical.com](http://www.norhursttactical.com)  
Email: [training@norhursttactical.com](mailto:training@norhursttactical.com)  
Phone: 434 792 8116

Proud Sponsor of:

# SMALL UNIT TACTICS

Small unit tactics (SUT) instruction teaches the individual strategies while working independently in severe environments. This scenario based training course covers in depth situations that special units or low visibility individuals can encounter. Topics include close ranging fighting skills, concealed carrying techniques, lone operator tactics, foreign weapons, battlefield recovery, striking techniques, distraction devices, low light shooting, and many other tactics designed for special ops.

Duration: 50 Hours

Website: [www.norhursttactical.com](http://www.norhursttactical.com)  
Email: [training@norhursttactical.com](mailto:training@norhursttactical.com)

# ADVANCED WEAPONS & WEAPONS SYSTEMS

This training is designed to expand on an individual's knowledge of standard military weaponry. Individuals will enhance performance specs, tactical employment, and expert operation of each designated weapon. Weapons trained on in this course include handguns (M9, M11, various .45 ACP weapons, etc.), rifles (M4, M203, M16A2, etc.), shotguns (M500, M870, M1014, etc.), submachine guns (MP5, MP7, etc.), and crew served weapons (M60, M2, M61 etc.).

Duration: 60 Hours

# BASIC MARKSMANSHIP

This training is conducted to improve a shooter's lethality and survivability in volatile and stressful situations. This course will cover the fundamentals of combat marksmanship and techniques, combat pistol, shotgun, and rifle techniques, target acquisition and discrimination and attacking multiple targets. This training will consist of drills to enhance accuracy, lethality, knowledge, and understanding while under the duress of hostile conditions.

Duration: 40 Hours

Proud Sponsor of:

# COMBAT MOUNTED MOBILITY

Combat mounted mobility teaches individuals proper execution of combat mounted mobility operations and increase mission success in hostile environments. Individuals will learn tactical skills, survivability, and lethality while operating under fire.

Topics include vehicle convoy, preparation and vehicle fortification techniques. Live battle drills will help the individual react to ambushes, IEDs, firefights, and downed vehicles.

Duration: 16 Hours

Website: [www.norhursttactical.com](http://www.norhursttactical.com)

# CELLULAR SIGNAL TECHNOLOGY

This introductory course will teach individuals the fundamentals of the most common cellular technologies: WiMAX, CDMA, GSM, and WMTS-WCDMA. Individuals will learn how to comprehend and apply the field of forensics and network exploitation to cellular signal technologies. Course topics include cellular coding schemes, channel structures, mobile equipment overviews, network functions and operations, among others.

Duration: 24 Hours

Website: [www.norhursttactical.com](http://www.norhursttactical.com)  
Email: [training@norhursttactical.com](mailto:training@norhursttactical.com)  
Phone: 434 792 8116

Proud Sponsor of:

# CDMA TECHNOLOGY

This introductory course will teach individuals the fundamentals of Code Division Multiple Access (CDMA). Individuals will learn about the channel access method used by cellular technologies to send voice and data signals. Course topics include CDMA usage and relevance, channel structure, coding schemes, mobile equipment hardware, network hardware and functions, frequency bands and others skills.

Duration: 16 Hours

Website: [www.norhursttactical.com](http://www.norhursttactical.com)

# GSM

## TECHNOLOGY

### 3G/GSM Analysis & Simulation

This introductory course will teach individuals the basics and fundamentals of the Global System for Mobile Communications (GSM). Individuals will learn GSM network recognition and operation, worldwide usage, channel structure, and evolution. Course topics include GSM relevance, coding schemes, voice and data processing, frequency bands, micro and macro network operation, GSM access scheme and other relevant topics.

Duration: 16 Hours

Website: [www.norhursttactical.com](http://www.norhursttactical.com)  
Email: [training@norhursttactical.com](mailto:training@norhursttactical.com)  
Phone: 434 792 8116

Proud Sponsor of:

# UMTS-WCDMA TECHNOLOGY

This introductory course will teach individuals the fundamentals of the Universal Mobile Telecommunications System—Wideband Code Division Multiple Access (UTMS-WCDMA) technology. Individuals will learn about the 3G and 4G mobile technology for sending voice and data signals at rapid speeds. Course topics include WCDMA history and evolution, network infrastructure and operation, and other relevant topics.

Duration: 16 Hours

**Norhurst Professional Services**—Norhurst has been successfully supporting clients with professional services for more than 11 years. We believe each of our clients is a partner with a common goal of making smart business and IT support decisions. We understand the demands of our ever-changing business world and work to employ solutions to meet your unique requirements. Our teams will ensure those solutions integrate flexibility for future growth. We specialize in IT Consulting, Staff Augmentation, Permanent Placement, Project Solutions, Business Integration, and Project Management in SAP, Oracle, PeopleSoft, Sales Force, Java, and other software applications your business may require.

**Norhurst Tactical**—Our tactical division provides tactical services, training and equipment for Commercial, Federal, Private and Defense Industries. With years of service to our country as Special Forces soldiers, we have adapted proven training tactics, techniques, and procedures (TTP’s) to provide the very best training to our customers regardless of the individual or collective requirements. Our team of subject matter experts, instructors, and instructional designers can modify any of our courses to meet specific customer requirements or create custom training to meet any operational or academic need. We also offer a variety of state-of-the-art tactical products.

**Norhurst Media Marketing**—Our Media Marketing division has over 50 years of experience in the media industry and specializes in the fields of Print Advertising, High Definition Video and Film, Commercials and Photography. Our team of experts work directly with your organization to ensure we exhibit your unique product or service in a way that sets your company apart from the competition. Whether you are developing a complete media strategy or simply making an opportunity media buy, Norhurst can help you reach your target audience utilizing best practice industry tools and techniques. Through calculated design and strategy, our entire team is committed to creating a unique brand for your organization.

**‘SHELTR’™ Training Program**—Unfortunately schools and other public venues around the world are becoming a target to foreign and domestic terrorism. The ‘SHELTR’ Training courses and Tactical Protective Gear gives schools, universities, or workplaces a chance to defend from an Active Threat. The Safety Hazard-Emergency-Lethal Threat Response (SHELTR) Training provides teachers, employees, maintenance staff, grounds keepers, etc. with training tools and techniques in which to keep their school or other location safe. These tools and techniques are meant to show how to create daily security routines, “LOOK” for things that are out of the norm, “REPORT” incidents in a timely and accurate manner, and “RESPOND” if your campus or workplace becomes engaged by a threat or crisis situation.
